

**Please keep the morse code for hf use. In bad band conditons cw is the best way to get the message across. If anyone wants to use hf bands they will learn the morse code. Code Quick is a great learning tool. The Montana Idaho cw net on 3.647 mhz at 3.00 gmt every night is alive and passing traffic. I hope you will read this comment. Thank you for your time Mike WV7Z.**
